

DE AWRA

Delaware Section of the American Water Resources Association

Advance water resources education, management, research, planning, and development

Establish a common meeting ground for physical, biological, and social scientists, engineers, and those concerned with water resources

Collect, organize, and provide ideas and information in the field of water resources science and technology

Activities

- Quarterly meetings
- Conferences with educational speakers and hot topics
- Field Trips
- Meetings with the National AWRA and other state chapters
- Community Service Projects

Benefits

- Meet others concerned with the health of Delaware's water resources
- Get the inside scoop on current events, legislation, and science dealing with water resources
- Professional development opportunities

Membership: \$5/student, \$25/professional
